

A simple yet modern looking home designed to be fun with both the layout & aesthetics. The roof allows for either a pitched or flat ceiling in the dining/ living room with a centred fireplace positioned to disperse heat evenly throughout the main living and down the hallway to the bedrooms. Increasing the garage into a double is an easy upgrade with this home while not disadvantaging any other aspect of the design, layout or internal garage access.

Floor Area: 112m²
